-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election without traverse of Group I (claims 1-6) in the reply filed on 04/18/2008 is acknowledged. Claims 7-18 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention.

### *Information Disclosure Statement*

2. Several references are cited in the specification, however, no copies were provided. The U.S. Patents cited on page 2 of the current specification **and** the references cited in the International Search Report from the USPTO have been considered and listed on the attached PTO-892. However, the non-patent literatures cited on page 7 and page 8 of the current specification are not readily available to the examiner; accordingly, **it is requested that applicant submit copies of the non-patent literatures** when responding to this Office action.

### *Claim Rejections - 35 USC § 102*

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(c) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Ramanath et al. (US 2002/0079487 A1; hereinafter, "**Ramanath**").

*Regarding claim 1:*

Ramanath discloses a circuit (Fig. 3) comprising:

a template 8;

a semiconductor material 7 (Fig. 3 and ¶0023 and 0030) self assembled on said template;

and

a self assembled connection 6 (Fig. 3) between the semiconductor material and the template to form said circuit. Therefore, this claim is anticipated.

***Allowable Subject Matter***

5. Claims 2-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter: Claims 2-6 would be allowable primarily because claim 2 requires the following limitation, in combination with the other limitations: a self-assembled second semi-conductivity type material on the other side of said first metal layer.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hunt et al. (US 2002/0167374 A1) is cited to show a self assembled circuit comprising a “field concentration” having similarity to that of the current invention.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lex Malsawma whose telephone number is 571-272-1903. The examiner can normally be reached on Mon. - Thur. (4-12 hours between 5:30AM and 10 PM).
